

ThinSpring

# SPL Conversion Services

## Focus on your submission schedule

- Need to get up to date with the latest FDA business rules?
- Need more capacity or capabilities than your current processes or vendors provide?

There is a solution. By choosing ThinSpring, a conversion services provider with solid experience, having converted thousands of SPL submissions, you will solve your product registration and listing challenges now. If you choose, you will be ahead of the curve when it comes time to bring conversion, validation and submission in-house with ThinSpring's SPL Server™. Our team focuses on stream lining the creation and submission of the required SPL, guiding you through the process, end to end.

The ThinSpring Team was formed, to provide you with a flexible set of solutions for your regulatory compliance success. Quality outsourced conversion services today, a clear migration path to a powerful integrated software solution tomorrow.

Does your conversion services provider have the highest rate of conversion accuracy?

Does your conversion services vendor provide a warranty period through FDA approval – at no cost?

Does your conversion services provider have a migration path for you to move from an outsourced conversion service to an internally implemented solution?

- Strong physical and electronic security measures to protect your information

Combining the power of ThinSpring's pharmaceutical industry experience and SPL Server™ technology, to validate your labels, high-quality document conversion services, ThinSpring helps simplify your path to SPL compliance by providing the highest quality conversions and software solutions. Because of our unique range of services and tools, ThinSpring has the flexibility to offer you the optimum SPL solution for your business needs – now and in the future.

The benefits of utilizing ThinSpring's conversion services are:

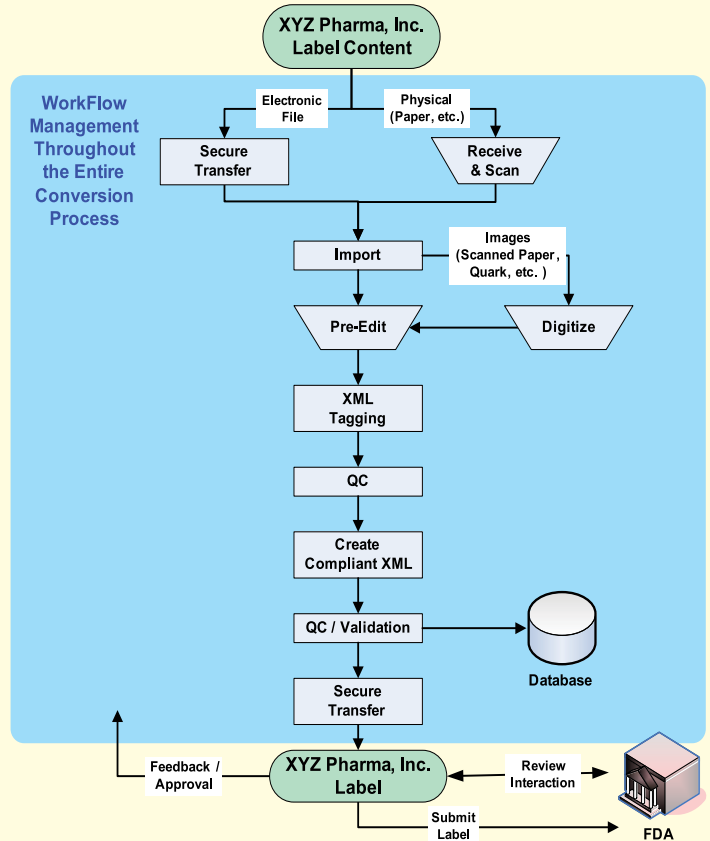

- Accurate and timely conversion of your regulatory information by experts who fully understand content conversion. ThinSpring is a leading provider of SPL, and other electronic submission types within the medical products industries. Customers range from some of the largest pharmas in the world with hundreds of labels to start ups with a single submission in prior to marketing applications approval stage. ThinSpring also performs XML conversions for clinical trial and drug sample reporting submissions.
- Confidence that your labels will comply with current SPL standards and FDA business rules. The ThinSpring Team has been processing SPL since 2004. Participation on the HL7 SPL working group enables us to quickly update our tools and processes, minimizing refusals to file upon submission.

ThinSpring's SPL Server technology validates your SPL file prior to FDA Electronic Submission Gateway submission, improving submission cycle time.

There is no provider better able to handle your outsourced SPL conversion needs than the ThinSpring Team!

## SPL Conversion Services

Documents in any format are accepted for conversion.
